PRESSEMITTEILUNG

Hamburg, August 2007

seachefs is proud of the Four Star Plus Award for the AMADEA

The AMADEA, in operation since March 2006 for cruise operator Phoenix Reisen in Bonn, was awarded Four Stars Plus in the Berlitz "Complete Guide to Cruising & Cruise Ships 2007" cruise guide. The different choices of travel routes, the service and the excellent value for money of the AMADEA contributed to the great success of this ship for the German speaking market.

"Our 'Amadea' has proved to be a success in a very short time and many guests have cherished the new flagship", says Benjamin Krumpfen, Managing Director of Phoenix Reisen. "Our spacious cabins and guest lounges, the extensive fitness and well being areas, the entertainment program and the technical equipment of the ship upgraded to the highest technical specifications through complex renovations, as well as our on board gastronomy for which seachefs has responsibility, have all led to this outstanding evaluation."

Georg Bernsteiner, Managing Director of seachefs' branch office in Hamburg, which specializes in complete hotel and ship management solutions for cruise ships, river-going vessels as well as ferries, sees this award as a confirmation of the high quality of the hotel and gastronomy concepts offered. "Awarding the 'Amadea' with Four Stars Plus, sets new standards in this segment. On board, a maximum number of 600 passengers can be served in the large 'Four Seasons' restaurant or in the 'Amadea' restaurant", according to the Manager. "We also place a high priority on qualified personnel who, especially in the service sector, possess a social commitment and a high respect for all guests. We are proud to be able to support Phoenix Reisen with our international experience and contacts".

The Head Office of seachefs is located in Limassol, Cyprus, subsidiaries are in Hamburg/Germany and in Basel/Switzerland. The company was founded in 1999, meanwhile 30 people are working for seachefs. Cruise companies like Hapag-Lloyd Cruises, Lüftner Cruises or Superfast Ferries are among long-time and satisfied customers.
