

Rescompany gains Tangula Luxury Train business in China.

Salzburg/Sydney, October 2007

Post Olympics 2008, a new luxury train operator will begin year round services in China. Tangula Luxury Trains will offer passengers exclusive rail journeys to remote regions of China with three trains carrying a total of 96 guests each. The northern route traverses the Tibetan plateau from Beijing to Lhasa (5 days/4 nights). The southern route travels from Beijing to Lijiang (5 days/4 nights) exploring the scenery of Guangxi and Yunnan provinces. (Four day/3 night journeys are available in the reverse direction on both routes). "As we are also offering extensive package arrangements we were looking for a reservation system that is flexible and can accommodate our unique requirements", said Bill Edward, Vice President of RailPartners Inc., the owning company of Tangula Luxury Trains. "We are impressed with the capabilities of the embedded marketing-mailing tools as well as the ability to integrate and sell through the Tangula website."

Tangula's custom-built trains will feature spacious suites with private bathrooms, gourmet cuisine, 24-hour butler service, wellness treatments, and in-room entertainment systems. Off-train excursions and on-board discovery programs will bring to life each journey's unique sights, cultures, and landscapes. Tangula Luxury Trains will be managed by Kempinski Hotels, Europe's oldest luxury hotel collection. Thomas Pfitzer, Managing Director of Rescompany Systems, about the new contract: "We are very excited to be part of this prestigious project. This is an excellent opportunity for Rescompany to set foot into the Chinese market as the reservation centre will be established in Beijing. Being able to run the reservation process for such a unique train operation with requirements for packages, as well as handling overlapping inventory, proves the flexibility of the RESCO reservation software. In addition, the multi-language capabilities of RESCO (including Chinese) will help to meet local documentation requirements for the authorities."

For information and inquiries regarding Tangula Luxury Trains please visit www.tangula.com.cn.

Rescompany Systems provides reservation and CRM software solutions to the travel and leisure industry. The RESCO software suite is built to support cruises, day cruises, wholesalers, tour operators, charters, individual excursions, holiday villages and package groups. RESCO Reservations and CRM are offered as one complete solution or as separate packages. For the stand-alone CRM package sophisticated interfaces are provided to existing systems to allow the best possible use of the available data. For more information please visit www.rescompany.com or contact us directly by email at tpfitzer@rescompany.com or call +43-6221-7287. Rescompany has local offices in Sydney, Salzburg and Vancouver.
